one in Tanzania)

## 204.9 Gwh

exported to the national grids in  
2020-2021

## 15,000 Ha

of freehold land in Mauritius

## VISION IN MOTION

With a turnover of MUR 9,549 M in 2021 and a capitalisation of MUR 8.2 Bn (USD 195M) on 30 June 2021, Alteo is a key regional player in sugar, energy and property development.

Listed on the Official Market of the Stock Exchange of Mauritius (SEM), Alteo is the largest sugar producer in Mauritius and has a strong foothold in Africa with cane growing in Tanzania and sugar factories in Kenya and Tanzania. In 2020-2021, the Group produced 297,900 tonnes of raw sugar and 65,000 tonnes of premium special sugars.

In addition to its sugar activities, Alteo owns and operates three power plants (two in Mauritius, one in Tanzania) that exported 204.9 GWh to the national grids in 2020-2021. One of the Group's core objectives is to increase its activities in the energy sector and to become an important player in renewable energy in Mauritius and Africa.

With 15,000 ha of freehold land in Mauritius, Alteo also has extensive experience in the property development sector. The group developed Anahita – a world-renowned luxury residential and golf estate – and launched several successful property developments aimed at the local market. Alteo now focuses on its strategic master plan aimed at creating value from its substantial land asset base through the development of a variety of innovative real estate projects in the east of Mauritius.
